直撃! まちかど博物館Report

The diagram shows a multi-lane sequencing setup. On the left, there are two large white rectangular areas representing sequencing lanes. The top lane contains four small white rectangles, and the bottom lane contains six small white rectangles. A dashed vertical line separates these lanes from a central area. In the central area, there is a red hatched rectangle. To the right of the red hatched rectangle, there is a vertical line. To the right of this line, there are three small white rectangles. At the bottom of the diagram, there are four small white rectangles. The diagram is divided into three main sections by vertical lines. The left section contains the two large white rectangular areas. The middle section contains the red hatched rectangle and the vertical line. The right section contains the three small white rectangles and the four small white rectangles at the bottom. A curved arrow points from the red hatched rectangle to the three small white rectangles in the right section.
